Physicians' Continuing Medical Education Program

January 17, 1984

Terry Lange, Administrator
55 South 5th East
Heber City, Utah 84032

Dear Mr. Lange:

This letter is to confirm that Dr. James B. Stinson will discuss "Renal Failure - Diagnosis & Management" with your medical staff on February 6th at 12:30 p.m.

In order to ensure that the topic presented is geared to the needs of your medical staff, please have one of your physicians contact Dr. Stinson at 535-8166 to discuss details of the subject with him.

We will also be advising you of our future physicians who will be speaking to your medical staff as soon as we have arranged for them. We hope that our program will be of benefit to you and your staff, and would greatly appreciate any feedback from your group as to how we could improve our program.

Best wishes,

Earl L. Christison
